

PISO'S

for Coughs & Colds

Put an End to Coughs and Hoarse, Irritated Throats

THEY are so easy to acquire this winter weather while cold, slushy days are common, wet feet and damp clothing unavoidable.

Guard against these ills. Doctors tell us that the neglected throat is often responsible for winter's worst ailments.

When Father comes home at night or when the children get in from school, see that they are made comfortable and if there is the slightest indication of cough or cold—give them Piso's.

For over half a century Piso's has been the reliable standby—the winter indispensable of the medicine cabinet. It soothes sore, inflamed throats and quickly stops that nerve-racking "tickling." It relieves hoarseness and makes the throat "smooth" and comfortable. It allays coughs and so keeps them from growing chronic.

Whether you or any member of the family have a cough or not, buy Piso's to-day and keep it on hand. Then, when coughs or colds do come, Piso's is ready day or night to render immediate aid. The formula is on every package.

30c AT YOUR DRUGGISTS.

Contains No Opiate.

Good for Young and Old.

Piso's Throat and Chest Salve is remarkably beneficial when used in connection with Piso's.
